DOCKETED BY

IN THE MATTER OF THE APPLICATION OF  
CRICKET COMMUNICATIONS, INC. FOR  
DESIGNATION AS AN ELIGIBLE  
TELECOMMUNICATIONS CARRIER IN THE  
STATE OF ARIZONA.

Docket No. T-

T-20721A-10-0019

**VERIFIED APPLICATION OF CRICKET COMMUNICATIONS, INC. FOR  
DESIGNATION AS AN ELIGIBLE TELECOMMUNICATIONS CARRIER**

Cricket Communications, Inc. ("Cricket") respectfully submits this Application for Designation as an Eligible Telecommunications Carrier ("ETC") pursuant to Section 214(e)(2) of the federal Communications Act of 1934, as amended (the "Act"),<sup>1</sup> Section 54.201 *et seq.* of the rules of the Federal Communications Commission ("FCC").<sup>2</sup> Cricket respectfully requests that the Commission grant this Application expeditiously, so that low-income customers in Arizona can benefit from the variety of high-quality calling plans provided by Cricket without any unnecessary delay.

**I. BACKGROUND.**

**Cricket.** Cricket provides digital wireless services on a common carrier basis, offering customers unlimited calling at flat rates without requiring a fixed-term contract or a credit check. Directly and through its affiliates, Cricket currently serves approximately 4.6 million customers in 34 states, and the District of Columbia. Cricket is a Delaware corporation authorized to do

<sup>1</sup> 47 U.S.C. § 214(e)(2).

<sup>2</sup> 47 C.F.R. § 54.201 *et seq.*

business in Arizona, and throughout the requested ETC area, pursuant to a Commercial Mobile Radio Service (“CMRS”) license granted by the Federal Communications Commission (“FCC”).<sup>3</sup>

***Designation of Eligible Telecommunications Carriers.*** Sections 214(e) and 254 of the Act expressly authorize the Commission to designate Cricket as an ETC.<sup>4</sup> More specifically, Section 214(e)(2) of the Act provides that, upon request and consistent with the public interest, convenience, and necessity, the Commission may, in the case of an area served by a rural telephone company, and shall, in the case of all other areas, designate more than one common carrier as an ETC, provided the requesting carrier: (i) offers services that are supported by federal universal service support mechanisms; and (ii) advertises the availability of such services.<sup>5</sup> The FCC’s rules, as well as the decisions of the Arizona Corporation Commission, impose additional requirements on a common carrier seeking designation as an ETC. As demonstrated below, Cricket satisfies each of these requirements.

***Scope of Cricket Designation Request.*** Cricket seeks ETC designation for the purpose of receiving available support from the federal universal service fund (“USF”) for low-income customers only (*i.e.*, Lifeline and Link-Up support).<sup>6</sup> Cricket seeks such designation in its licensed service areas throughout the following counties: Maricopa County, Pinal County, Pima County and Santa Cruz County. Exhibit A contains maps showing Cricket’s current coverage area in State, and Exhibit B contains the list of the wire centers within those coverage areas.

***Service Plans Offered by Cricket to Eligible Lifeline/Link Up Participants.*** In Arizona, Cricket offers several service plans to consumers. Exhibit C sets forth the service plans that are available in Arizona. All of these plans would be available to eligible Lifeline/Link Up participants. Customers requesting Lifeline service from Cricket will have the option of choosing any of Cricket’s plans. Cricket has specifically tailored its wireless service plans to share the

<sup>3</sup> The FCC License call signs for Arizona are: BTA 322 – WPOK592; BTA 347 – WPRT965; BTA 447 – WPOK603; and CMA 318 – WQGD712.

<sup>4</sup> 47 U.S.C. §§ 214(e), 254.

<sup>5</sup> 47 U.S.C. § 214(e)(2). *See also* 47 C.F.R. § 54.201(d).

<sup>6</sup> Cricket is not seeking ETC designation for high-cost support.

benefits of wireless telecommunications with underserved customers who have been left behind by other providers. Cricket offers unlimited voice service at affordable rates starting as low as \$30 per month. These plans come without the typical strings attached (such as credit checks, long-term commitments, and early termination fees) that otherwise prevent many economically disadvantaged customers from obtaining wireless services.

Lifeline customers can visit a Cricket store, select a plan the best suit their needs, complete the Lifeline application and activate service. Cricket's service activation fee is \$15.00. Once the application has been reviewed to ensure it comports with applicable regulations, the Lifeline discount of \$13.50 and the 50% Link-up discount (\$7.50) will be applied to the customer's account. Other than having the Lifeline discount, Lifeline customers will be treated as any other Cricket customer. In addition, current Cricket customers that request Lifeline and are eligible will be given the discount upon completion of the application.

***No Service Area Redefinitions are Requested.*** Cricket is not requesting any service area redefinitions through this application.

For the reasons set forth below, designating Cricket as an ETC throughout the requested service areas would serve the public interest, convenience and necessity.

## **II. CRICKET SATISFIES THE FEDERAL STATUTORY AND REGULATORY PREREQUISITES FOR DESIGNATION AS AN ETC IN ARIZONA.**

Cricket satisfies each of the statutory and regulatory prerequisites set forth in the Act and related FCC rules

### **A. Cricket Offers the Services and Functionalities Supported by the Federal Low-Income Universal Service Program [47 C.F.R. § 54.201(d)].**

Cricket provides each of the services supported by federal universal service support mechanisms, as set forth in 47 C.F.R. § 54.101, and will offer these supported services throughout the area in which it is designated as an ETC. Cricket will provide these supported services using its own facilities or a combination of its own facilities and the resale of another carrier's service. Cricket primarily will use its own network infrastructure, which includes the same antennae, cell-

sites, towers, trunking, mobile switching and interconnection facilities used to serve its existing customers. These supported services include:

***Voice Grade Access [47 C.F.R. § 54.101(a)(1)].*** “Voice grade access” permits a telecommunications user to transmit voice communications, including signaling the network that the caller wishes to place a call, and to receive voice communications, including receiving a signal that there is an incoming call. Through its interconnection agreements with local exchange carriers (“LECs”) in Arizona, Cricket’s customers will be able to make and receive calls on the public switched telephone network with a minimum bandwidth of 300 to 3000 Hertz.

***Local Usage [47 C.F.R. § 54.101(a)(2)].*** “Local usage” is an amount of minutes of use of exchange service provided without an additional charge to end users. The FCC has specified that a local usage plan is acceptable if it is “comparable to the one offered by the incumbent LEC in the service areas for which the applicant seeks designation.”<sup>7</sup> This comparability analysis must proceed on a case-by-case basis, and take account of value-added capabilities and services incorporated into a plan.<sup>8</sup> Cricket’s current local usage plans, summarized in Exhibit C, are comparable in value to those offered by ILECs operating in the requested ETC service area. Cricket’s plans offer consumers numerous benefits, including larger “local” calling areas, the availability of mobile service, and unlimited local and long-distance calling options. In addition, those plans incorporate value-added features, such as caller ID; unlimited domestic text and picture messaging; unlimited text messaging to Mexico; premium extended coverage providing unlimited service without additional roaming fees in over 4,600 domestic cities and towns; and call waiting, three-way calling, and voicemail, among other services.

***Dual Tone Multi-Frequency Signaling or its Functional Equivalent [47 C.F.R. § 54.101(a)(3)].*** Dual tone multi-frequency (“DTMF”) signaling is a method of signaling that facilitates the transportation of call set-up and call detail information. The FCC has recognized

---

<sup>7</sup> See *Federal-State Joint Board on Universal Service*, Report and Order, 20 FCC Rcd 6371, at ¶ 32 (2005) (“2005 ETC Order”).

<sup>8</sup> *Id.*

that, with respect to wireless carriers, it “is appropriate to support out-of-band signaling mechanisms as an alternative to DTMF signaling.”<sup>9</sup> Cricket currently uses out-of-band digital signaling and in-band multi-frequency signaling that is the functional equivalent to DTMF signaling.

***Single-Party Service or its Functional Equivalent [47 C.F.R. § 54.101(a)(4)].*** With respect to wireless carriers, “single-party service” affords a user a dedicated message path for the length of a user’s particular transmission. Cricket meets this requirement with respect to each of its service offerings.

***Access to Emergency Services [47 C.F.R. § 54.101(a)(5)].*** “Access to emergency service” includes access to services, such as 911 and enhanced 911 (“E-911”), provided by local governments or other public safety organizations. Cricket currently provides its voice customers in [STATE] with such access, is capable of delivering automatic numbering information (“ANI”) and automatic location information (“ALI”) over its existing network, and otherwise satisfies applicable [state and] federal E-911 requirements. Further, Cricket pays all applicable E-911 fees in a timely manner. Cricket will continue to work with local public safety answering points (“PSAPs”) within its ETC service areas to make 911 and E-911 service available to its customers.

***Access to Operator Services [47 C.F.R. § 54.101(a)(6)].*** “Access to operator services” means access to automatic or live assistance provided to a customer to arrange for the billing or completion, or both, of a telephone call. Cricket meets this requirement by providing access to operator services with respect to billing questions to customers dialing “611,” and access to operator services with respect to call completion to customers dialing “411.”

***Access to Interexchange Service [47 C.F.R. § 54.101(a)(7)].*** With respect to wireless carriers, “access to interexchange service” means access to the functional equivalent of the use of the loop, as well as that portion of the switch that is paid for by the end user, necessary to access an interexchange carrier’s network. Cricket meets this requirement by providing all of its

---

<sup>9</sup> *Federal-State Joint Board on Universal Service*, Report and Order, 12 FCC Rcd 8776, at ¶ 71 (1997).

subscribers with the ability to make and receive interexchange or toll calls through Cricket's network.

**Directory Assistance [47 C.F.R. § 54.101(a)(8)].** "Access to directory assistance" means access to a service that includes, but is not limited to, making available to customers, upon request, information contained in directory listings. Cricket meets this requirement by providing access to directory assistance to customers dialing "411."

**Toll Limitation [47 C.F.R. § 54.101(a)(9)].** "Toll limitation" includes the offering of either "toll control" or "toll blocking" to qualifying low-income customers, as a means of limiting or blocking the completion of outgoing toll calls. An ETC is not required to provide either service if it is incapable of providing such service. Cricket's calling plans do not distinguish between local and toll calls at the point of dialing, such that Cricket cannot offer toll limitation without blocking all service to a customer. However, if for any reason Cricket changes the structure of its service plans to distinguish between local and toll calls, Cricket will meet the toll limitation requirement by providing toll blocking.

**B. Cricket Will Advertise the Availability of and Charges for its Universal Service Qualifying Offerings [47 C.F.R. § 54.201(d)(2)].**

Cricket will advertise the availability of the supported services detailed above, and the corresponding rates and charges, in a manner designed to inform the general public within its designated ETC service areas. This advertising will occur through some combination of media channels, such as television and radio, newspaper, magazine and other print advertisements, outdoor advertising, direct marketing, and the Internet. Specifically, Cricket will advertise the availability of the supported services outlined in its application and the corresponding rates and charges in a manner designed to inform the general public within its designated low-income only ETC service areas. Cricket's advertising and outreach plan includes listing with and with any other appropriate state or social service agencies. In addition, Cricket will expand its web-site to ensure that it accurately reflects the availability of Lifeline/Link Up programs in Arizona. Currently, Cricket is only listing Lifeline service information on its market web-site corresponding with the counties where Cricket is

currently offering Lifeline but will expand web-site information to include the market sites corresponding to this application for ETC low-income designation.

Cricket will work with government agencies that administer the qualifying assistance programs and with social service agencies to ensure that they are aware Cricket is a Lifeline provider. Cricket will provide these agencies with collateral materials outlining the Lifeline program and how to obtain Lifeline discounts. Cricket plans to expand their community outreach program in the counties where ETC designation is being sought. Community events in the areas where potential Lifeline subscribers live will be planned. Direct mailing to the zip codes in the covered areas will also provide information on the availability of the Lifeline program. Lifeline materials will be available for non-English speaking consumers.

Advertising will occur through some combination of media channels, radio, newspaper, magazine and other print advertisements, outdoor advertising, direct marketing, and the Internet. Cricket stores and dealers will be furnished with promotional material visible to customers in the stores including posters and counter cards.

**C. Cricket Will Satisfy its Additional Obligations as an ETC.**

In addition to those requirements set forth in Section 54.201 of the FCC's rules, Cricket will satisfy other ETC requirements adopted by this Commission and the FCC. In particular:

***Commitment to Provide Service Upon Reasonable Request [47 C.F.R. § 54.202(a)(1)].*** If a request is made by a potential customer within Cricket's existing network coverage, Cricket will provide service immediately using its standard customer equipment (handsets/wireless devices). If a potential customer requests service within Cricket's designated ETC service area, but outside its existing network coverage, Cricket will follow the six-step process specified in 47 C.F.R. § 54.202(a)(1)(i). Specifically, Cricket will determine if service can be provided at reasonable cost by: (i) modifying or replacing the requesting customer's equipment; (ii) deploying a roof-mounted antenna or other equipment; (iii) adjusting the nearest cell tower; (iv) adjusting network or customer facilities; (v) reselling services from another carrier's facilities to provide service; or (vi) employing, leasing or constructing an additional cell site, cell extender, repeater, or other similar

equipment. Because Cricket seeks only low-income support, as opposed to high-cost funding to support the construction of network facilities, it is not submitting a network improvement plan under 47 C.F.R. § 54.202(a)(1)(ii).<sup>10</sup>

***Ability to Remain Functional in an Emergency [47 C.F.R. § 54.202(a)(2)].*** Cricket is committed to providing and maintaining essential telecommunications services in times of emergency. In particular, Cricket maintains a reasonable amount of back-up power to ensure the functionality of its service without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations. More specifically, all mobile switching centers and cell sites have battery backup power, each switching center has a dedicated diesel generator, and there are several cell site generators in the market area. In instances of power outages, priority is set based upon traffic, cell site location and time of day. In certain parts of the service area, a cell on wheels (COW) can be deployed. In case of a total switch outage, a mobile command center may be established by each switch vendor.

***Satisfaction of Applicable Consumer Protection and Service Quality Standards [47 C.F.R. § 54.202(a)(3)].*** Cricket will comply with all applicable state and federal consumer protection and service quality standards. Further, Cricket will abide by CTIA's Consumer Code for Wireless Service ("CTIA Code"). Cricket has already adopted the CTIA Code and is committed to compliance with the CTIA Code throughout its service areas, including in those areas where it is seeking designation as an ETC. In particular, Cricket will use its best efforts to resolve complaints received by the Commission, and designates the following contact person to work with Commission staff to resolve any complaints or other compliance matters:

---

<sup>10</sup> The FCC has made clear that this requirement applies only to carriers receiving high-cost support. See 2005 ETC Order at ¶ 23.

governmentinquiry@cricketcommunications.com

***Local Usage Plan [47 C.F.R. § 54.202(a)(4)].*** As discussed above and in Exhibit [C], Cricket offers several local usage plans to customers. These plans, which will be available to low-income customers, are comparable to those offered by ILECs in the service areas for which Cricket seeks ETC designation.

***Equal Access [47 C.F.R. § 54.202(a)(5)].*** Cricket acknowledges that the FCC may require it to provide equal access to long distance carriers in the event that no other eligible telecommunications carrier is providing equal access within the service area.

***Lifeline Certification and Verification [47 C.F.R. § 54.410].*** Cricket will certify and verify consumer eligibility to participate in the Lifeline and Link-Up programs in accordance with the rules of this Commission and the FCC.

***Commission Decision No. 67941.*** Cricket will ensure that its Lifeline and Link Up programs comport with the applicable requirements of this Decision.

***Regulatory Fees.*** Cricket pays all applicable federal, state, and local regulatory fees, including but not limited to universal service and E-911 fees, in a timely manner.

### **III. DESIGNATING CRICKET AS A COMPETITIVE ETC WILL SERVE THE PUBLIC INTEREST.**

Designating Cricket as an ETC will serve the public interest generally, and the needs of low-income customers in Arizona in particular. Cricket has specifically tailored its wireless service plans to share the benefits of wireless telecommunications with underserved customers who have been left behind by other providers. Cricket offers unlimited voice service at affordable rates starting as low as \$30 per month and unlimited broadband starting at \$35 per month, without

the typical strings attached (such as credit checks, long-term commitments, and early termination fees) that otherwise prevent many economically disadvantaged customers from obtaining wireless services. With this foundation of simplicity and affordability as its business model, Cricket and its joint venture partners have built a network covering almost 92 million individuals in 34 states and the District of Columbia, and are steadily expanding into new communities where the telecommunications needs of consumers are not being met by existing providers.

Cricket fulfills a critical role in the marketplace by ensuring that many Americans who cannot qualify for, or afford, the services provided by other wireless providers can still enjoy the benefits of wireless telecommunications, including wireless broadband. Cricket's flat-rate, unlimited service model is ideal for many consumers on a limited budget; other carriers often impose hefty overage charges if consumers exceed their usage limit. Many consumers cannot even qualify for service from other providers because of creditworthiness concerns or the inability to commit to a long-term contract.

As a result, Cricket's customer base of approximately 4.6 million customers is quite unlike those of other wireless providers. Notably, approximately 80 percent of Cricket's customers have annual household incomes of less than \$50,000 and 55 percent have annual household incomes of less than \$30,000. In contrast, just 48 percent of other wireless carriers' customers have annual household incomes of less than \$50,000. The usage patterns of Cricket's customers also are distinct. Ninety percent of Cricket's subscribers use the service for their primary phone (compared to an industry average of 50 percent), and 68 percent do not have a traditional landline phone service at home (compared to an industry average of 15 percent). Cricket's customers also use an average of approximately 1500 minutes per month—almost twice as many minutes per month as the industry average.

These figures reveal that Cricket reaches market segments that other carriers have ignored, and its customers look to Cricket for all of their telecommunications needs, including an entrance to the online world. In fact, nearly 50 percent of customers subscribing to Cricket's flat-rate wireless broadband service have never had Internet access at home—not even dial-up.

Designating Cricket as an ETC will improve its ability to serve these customers, and thus will serve the public interest.

#### IV. CONCLUSION.

Cricket respectfully requests the Commission to expeditiously issue an Order designating Cricket Communications, Inc. as an eligible telecommunications carrier for in Arizona as requested in this application.

RESPECTFULLY SUBMITTED THIS 20<sup>th</sup> day of January, 2010.
